## CONSCIOUS PROMOTIONS TO CONVEY YOUR MESSAGE

Small changes can make a huge difference. Dedicated to sustainability we strongly focus on a continuous path to replace and introduce green variants to the essential product portfolio on offer, whilst reducing unnecessary stress on both people and the planet. We have dramatically increased the use of recycled and renewable materials to avoid unnecessary waste. With the aim to encourage customers and colleagues you work with to build a long-term, sustainable relationship with your brand and the products they receive from you. We hope to inspire you with this collection full of both environmentally as well as budget-friendly products. Items that offer you and your customers on trend items in all major product categories along with a complete decoration and print service, hands-on ideas and tips for the new and exciting products displayed.

# We contribute to create **conscious promotions**

Dedicated to sustainability and the development of a responsible collection, we can project our brands and environmental goals whilst aiding the reduction of landfill waste.

### RESPONSIBLE SOURCING AND PRODUCTION

All products are produced in a responsible way and comply with the requirements under EU laws and regulations. Choosing more sustainable materials has been an essential factor during the development of this new collection.

### SOCIAL RESPONSIBILITY AND SUSTAINABLE PRINTING

During production and printing we focus on creating a safe and positive working environment. All items are well-constructed, tested and produced with compliant and safe materials. Our printing process requires the safe use of all production inputs, such as chemicals and the control of all production outputs and emissions.

### SUSTAINABLE SOLUTIONS

By strongly reducing the use of virgin plastic and rethinking the most efficient way to pack the goods, both individually and for onward distribution shipment, we can reduce waste and influence our environmental footprint.

# Eating & Drinking

## REUSABLE DRINK & LUNCHWARE FOR ANY OCCASION

Reusable drink and lunchware items are essential as part of a healthier lifestyle, but also contribute to maintaining sustainable practices in our daily routine. You will find a comprehensive choice of items that, with the latest decoration techniques, will display your brand in the most visible way day after day.

## INK-FREE DECORATION

Laser engraving is a sustainable ink-free printing technique. A large number of bottles have a cylindrical surface enabling a 360 degree laser engraving which creates a luxurious and permanent decoration effect.

# PRINTING TECHNIQUES

HAVING YOUR LOGO PRINTED WITH THE WIDEST RANGE OF PRINTING TECHNIQUES HAS NEVER BEEN SO EASY. THESE ARE THE MAIN TECHNIQUES USED TO PRINT YOUR LOGO.

## DIGITAL PRINTING 360

Combining the technology of UV inkjet digital printing with rotary print capabilities allows us to print full colour images with vivid colours around bottles and other cylindrical items.

## LASER ENGRAVING 360

Technique of laser engraving (e.g. wood, metals etc.), coupled with rotary engraving capabilities which allows us to offer engraved design on the circumference of cylindrical items.

## SUBLIMATION

Sublimation is one of the few methods you can print full coloured images onto hard surfaces or polyester coated items. Number of colours is unlimited for complete customized logos.

## DOMING

The doming procedure consists of printing the logo on a self-adhesive label domed with an epoxy resin layer. It is a durable solution and cannot be easily scratched or dented.

## DIGITAL LABEL

Digital Label is used on items where no other technique can be applied. With his method full colour label is printed and stuck on the most optimum position of the product.

## DIGITAL PRINTING

Digital printing is done by placing the product under a four-color digital printer. Compared to the conventional technique it is a more environmental friendly solution.

## DIGITAL INLAY

Digital inlay is a piece of paper, printed on a four-colour xerographic printer which offers photographic image quality and sharp text, it is then placed in the selected print template position.

## BUTTON PRINTING

The print is carried out prior to assembly of the item. This allows for a full customized design.

### DIGITAL TRANSFER

Digital Transfer is one of the most popular methods for full colour logos and designs. This Four Colour Process hits over thousands of colours resulting in a photographic quality decoration.

### SCREEN TRANSFER

Economic option for simpler designs. The logo is printed on a sheet by means of serigraphy (which allows 1 to 8 colours) and then transferred to the product.

### CERAMIC TRANSFER

The technique of ceramic transfer printing is applied to ceramic promotional cups and items where the logo is printed on a sheet and transferred by water.

### SCREEN PRINTING

Main advantage of screen printing is the unique result you can achieve. It can be applied on a variety of materials but mostly used on fabrics since a larger size can be achieved.

### PAD PRINTING

Pad printing is a technique where rubber stamps are used to print the logo on the item. With this technique you achieve a sharper finish and a perfect colour matching (PMS) is achievable.

### ROUND SCREEN PRINTING

Round screen printing is a method that allows round personalisation. It is an optimum solution for the popular reusable bottles since, due to its form, the print position is larger than can be achieved using the traditional printing method.

### DEBOSSING

Debossing is a popular technique for marking products made of leather, PU or cardboard. The logo is stamped on the material being sunk and making it indelible.

### EMBROIDERY

Embroidery is a very popular technique in products such as caps, textiles or advertising bags where the finishing touch is in the sewn logo with woven threads.

### LASER ENGRAVING

Laser engraving can be applied to items made of natural materials like wood and metals. With laser engraving the result of branding is precise, clean and permanent.
