GIFTS WITH LOVE AND PRINTS IN COLOURS

INDEX

Natural, sustainable and eco-friendly promotional gifts

The GO GREEN collection helps you achieve your promotional goals in a more sustainable way. Our products marked with green material icons provide greener alternatives to traditional items. They are fully or partially made of natural, sustainable or recycled materials or provide a more durable substitute to a normally disposable everyday item.

The greener choice

As we think about our future, it is important to make the meaningful decisions today. Year by year, we increse the amount of products made by sustainable and recycled materials. Not only do these items help to reduce the waste generated during production, their increased sustainability prevents the overuse of natural resources. We hope our GO GREEN collection will motivate many to think about the environment and will help maintaining an eco-friendly image.

Find a highlight of our GO GREEN materials below, and even more throughout the catalogue.

RPET	Wood	Bamboo	Cork	Recycled paper
Organic cotton	Recycled cotton	Jute	Hemp	Corn PLA
Recycled ABS	Recycled aluminium	Recycled stainless steel	Bamboo fibre plastic	Wheat straw plastic

3

be Creative

BE CREATIVE is a special product collection that lets you create perfectly customized and truly unique promotional gifts. These items give you the freedom to present your brand with bold, full-colour designs that can be easily integrated into your corporate image. Some of the BE CREATIVE items even give you the opportunity to mix and match the colour and material of the product parts or design your custom shape to make them more outstanding.

Find inspiration among our illustrations – we use various natural and geometrical patterns as well as graphics of animals in vivid colours to illustrate the high level of customisation possibilities.

This showcase only represents a small selection of the BE CREATIVE products; you can find many more throughout the following chapters of the catalogue.

UNIQUE

The BE CREATIVE Collection lets you create unique and memorable messages and images by offering a high degree of customisation.

INNOVATIVE

The BE CREATIVE Collection consists of special products, developed and hand-picked with creativity and special customisation in mind. Imprints are almost entirely made with digital technologies, ensuring colourful and high-resolution prints.

ACCESSIBLE

BE CREATIVE products are custom-made in our in-house production facilities or assembled from our stock of parts. They are manufactured, assembled or printed in Europe. This ensures short delivery time and low minimum order quantity, even for entirely custom-made products.

Compliance and quality commitment

Our catalogue presents a wide range of products that were sourced and manufactured with special care to ensure the quality, safety, and compliance with European requirements, as well as with various product-specific standards.
Declaration of Conformity documents and laboratory test reports are available as an assurance of product compliance with applicable European regulations.

The displayed icons are graphically designed therefore may differ from legal icons.
No rights may be derived from this information.

CREAPACK

Your printed promotional products make a more memorable impression in personalized packages. That is why we provide you a full service of packaging with matching custom gift boxes and paper sleeves. CreaBox and CreaSleeve gift boxes, as the members of the highly customisable BE CREATIVE Collection, can be full-colour printed with your unique design to match your brand and message perfectly.

Part of the BE CREATIVE collection.

Products made in Europe.

A minimum order quantity of 50 pieces.

Please contact your sales representative if you would like to know whether a product has personalized CreaBox or CreaSleeve options.

Standalone CreaBox Gift Boxes

Besides our product-specific CreaPack options, we offer standalone CreaBox gift boxes for your general packing needs. The boxes listed below can be ordered independently so you can fit multiple promotional and traditional gifts in one package.

Indicated prices include full colour printing of the boxes. Minimum order quantity is 50 pcs. Delivered flat-packed.

Size: ø70×263 mm **Printing:** RS2(1), RUV(FC), ER1, E3, P3(1)

COPPER INSULATION FOR THE PERFECT TEMPERATURE

A copper lining on the inside of stainless steel vacuum flasks does wonders to your beverages. Copper provides an exceptional temperature retention for hot or cold drinks, while their stainless steel outer wall makes them exceptionally durable. They are easy to clean, making them the perfect choice for office settings or other business environments. Never settle for lukewarm drinks again!

BAGS
and Travel

Start with a confident step! Whether people go to the mall, do the daily workout or go on a lovely picnic in the park, a shopping bag, backpack or cooler bag will be their companion. Provide them with colourful or sustainable bags and travel accessories to make sure your brand is noticable in public places.

THE CORNERSTONE OF PROMOTIONAL GIFTS

Cotton shopping bags are among the most popular promotional items. They are perfect for holding other accessories when you give away gift sets, or for promoting at public places. A branded cotton bag will guarantee that your logo is easily noticed, while their sturdiness and practicality make them especially attractive.

Longish AP806610-00

PROMOTE HERE, THERE, EVERYWHERE

There are not many gifts that see as much use in everyday life as backpacks. People might take them to the office, to school or to longer trips as well, generating a huge amount of brand awareness with your company's logo. Find a wide range of shapes and sizes of traditional backpacks with many practical functions, or choose ecological RPET variants to maintain a green image as well.

TO INFINITY AND BEYOND

Inkless pens are among the most convenient writing and drawing accessories. They write more similarly to a pencil but their longevity even surpasses most pens' – until you erase it. They are exceptionally long-lasting, making them the perfect promotional products to impress existing and future customers.

Tebel AP722412

Long-lasting inkless bamboo pen with metal alloy tip, which oxidizes the paper. This pen writes similarly to a pencil, and it is also erasable. **Size:** ø8×137 mm **Printing:** E1, P1(4)

Bovoid AP800452

Long-lasting inkless bamboo pen with white eraser and metal alloy tip, which oxidizes the paper. This pen writes similarly to a pencil, and it is also erasable. **Size:** ø8×159 mm **Printing:** E1, P1(4)

DON'T WASTE THE WASTE

Paper recycling aims to counteract the fact that trees are not replanted or cannot grow fast enough to provide enough material for general paper usage. You can act on this problem while making a positive statement about your company and brand with our recycled paper pens. Dedicate your image to sustainability and customers will dedicate their attention to you.

your logo   your logo

Find the basic version of CreaClip in 4 colours on page 258.

CreaClip Eco AP718189-10

A TRUSTWORTHY FOUNDATION FOR YOUR PROMOTIONAL CAMPAIGNS

Among the many advantages of aluminium, it is 100% recyclable. Its recycling process saves energy, reduces its environmental impact, and helps you lessen the environmental footprint of your company by using these kinds of products. Build your corporate social responsibility on ecologically conscious choices and meet your promotional goals easily!

TAKE NOTES ON ADVERTISING

Whenever a promotional pen is used, there is a good chance a notebook will also make an appearance. In addition, notebooks can last as long as a year, spreading brand awareness even outside the office.

BRAND PROMOTION? DON'T SWEAT IT

There is hardly a better way to make people notice your brand on the streets than having customers wear it. Personalise a comfortable sweatshirt or jacket with your logo and and make sure your brand becomes widely recognised.

GILDAN®

PRINTING TECHNOLOGIES

Choosing the best gift - from our wide product collection - for your promotional needs is only half of the success equation. The appearance of your logo or message carries equal importance. In order to ensure the realisation of your brand image, we provide various printing technologies, ranging from traditional methods to state of the art digital technologies.

The following guide aims to give you a brief overview of our labelling techniques and to help you pick the best for your selected item.

Lumpy AP6149

P0(4), UVA(FC)

► Max print colours. (FC=full colour)

► Printing technology.

P PAD PRINTING

Pad printing is the most popular, traditional ink-based labelling method. This technology uses a silicone pad to transfer ink onto an item with fine details and high accuracy, applicable to a wide range of materials. Pad printing allows labelling curved surfaces.

S SCREEN PRINTING

Screen printing is a traditional ink-based labelling process, for flat or flattenable products, with high durability and colour accuracy. During the screen printing process ink is directly pressed on the product's surface through a gauze, then fixed with heat treatment.

RS ROTARY SCREEN PRINTING

Rotary screen printing is a special kind of screen printing for labelling bottles. The cylindrical screen printing machine rotates the product parallel with the gauze, resulting in continuous prints throughout the surface of the product.

T TRANSFER PRINTING

Transfer printing is based on traditional screen printing, however, instead of being directly screen printed onto an item, the design is printed onto transfer paper, then applied with a heat press. Transfer printing is applicable to a wide range of products and holds several advantages over screen printing.

DT DIGITAL TRANSFER

Digital transfer printing is a modern, full-colour alternative to traditional transfer printing. The design is printed in photo quality onto transfer paper with a special digital printer, then applied to the product with a heat press. Our digital transfer technology carries no limitation in size or shape of imprints.

SU SUBLIMATION PRINTING

Sublimation printing is a full-colour, digital labelling technique with photo quality. Designs are printed with special ink on a transfer paper, then heat-pressed onto the product's surface. Sublimation is only applicable to light coloured polyester and sublimation coated products.

OP INKJET OVERPRINTING

Inkjet overprinting is used to imprint flat surfaces in full-colour with a special high-speed inkjet printer. As inkjet overprinting does not utilise white inks, imprint colours may be effected by the base colour of the product. Inkjet overprinting is applicable to porous materials, such as paper, natural bamboo and wood.

UV UV LED PRINTING

UV LED printing is a full-colour, digital labelling process utilising UV-cured inks. Logos are directly printed on the product's surface in high-resolution, resulting in instant photo quality imprints.

RUV ROTARY UV LED PRINTING

Rotary UV LED printing is a digital, full-colour labelling process to create photo quality imprints directly on the surface of cylindrical and conical items, allowing a large imprint wrapping the item. Rotary UV LED imprints are coated with transparent varnish for an exquisite look and extra durability.

C CERAMIC PRINTING

Ceramic printing is used to label mugs, glasses and certain metal items using special ceramic paints fired at high temperature. The label is applied to the product similarly to transfer printing, then fired in a furnace.

WPC CERAMIC WHITE PRINITING

Ceramic white printing is a special full colour printing technology for white ceramic products, which is based on ceramic printing.

O DEBOSSING

Debossing is an elegant process that changes the surface of the material that has been debossed, through forming a 3D impression. This impression is achieved by pressing a specially-made die onto the product's surface.

E ENGRAVING

Engraving utilises lasers to mark a product's surface. The surface of the product practically burns in the process to develop the logo. Even small logos can be printed very accurately. Engraving is applicable to metal, wooden, glass and certain plastic products.

RE RAINBOW ENGRAVING

Rainbow engraving is a special laser engraving technology, utilising different wavelength laser beams to achieve coloured imprints on metal items, without the use of inks or chemicals.

ER ROTARY ENGRAVING

Rotary engraving utilises lasers to mark the surface of cylindrical products. With the help of a special rotary device the engraved product is rotated during the printing process, allowing a large imprint wrapping the item. Rotary engraving is applicable to metal, wooden, bamboo, glass and certain ceramic products.

DO EPOXY DOMING

Epoxy doming is a unique printing technology, using full-colour printed stickers covered with 2 component resin. As a result, the treated sticker will have a 3-dimensional look. Epoxy domed logos can be produced in custom shapes and are resistant to UV rays.

DG DIGITAL PRINTING

Digital printing is used to imprint paper products and paper inserts in photo quality. Paper inserts can be produced in various sizes and shapes.

VF VISION FILM PRINTING

Vision Film printing is a special printing technique for labelling sunglasses lenses. During the labelling process, a digitally printed and perforated film is applied enabling a high degree of customisation.

VS VINYL STICKER

Vinyl stickers are digitally printed full-colour, self-adhesive stickers applicable to various, otherwise hard to print, products. Vinyl sticker logos can be produced in various sizes and shapes.

BR EMBROIDERY

Embroidery is used to label textile products, resulting in durable and high-quality imprints, by an automatic embroidery machine which applies thread through needle stitches. Pantone matching is not achievable, due to limited thread colours.

FP FREE PRINTING

Price includes printing with indicated technology. Excluding setup charge.
