Be conscious while creating a significant impact

Giving a personalised gift is a nice and high-impact opportunity to show your appreciation and to increase your brand recognition. During selection our goal is always to create functional and stylish products while increasing the use of recycled and renewable materials. Combined with the most suitable decoration technique we hope to inspire you with this new end of year selection full of environmentally as well as budget-friendly ideas.

Responsible sourcing and production

All products are produced in a responsible way and comply with the requirements under European laws and regulations. Choosing more sustainable materials has been an essential factor during the development of this new collection.

Social responsibility and sustainable printing

During production and printing we focus on creating a safe and positive working environment. All items are well-constructed, tested and produced with compliant and safe materials. *Our printing process requires the safe* use of all production inputs, such as chemicals and the control of all production outputs and emissions.

Sustainable solutions

By strongly reducing the use of virgin plastic and rethinking the most efficient way to pack the goods, both individually and for onward distribution shipment, we can reduce waste and influence our environmental footprint.

Outdoor Experience

Embark on a unique outdoor adventure with our new high-end bags collection. Practical and durable, they are made of high-quality materials and can be perfectly personalised. Complete the outfit with a customised beanie, scarf or umbrella and your brand will get noticed every time they are worn.
